Hello everyone,

I thought I would share with you a few new informational pieces we just released today.

- 1<sup>st</sup> is our new 48V Brochure
- 2<sup>nd</sup> is our latest investor presentation from today (just rotate the view when you open it) – we usually have some good hybrid and electric data in these presentations (slide 16 is interesting). You can listen to a replay of the full webcast presentation from Sept. 18<sup>th</sup> on our IR site.
